

Manage Channel Subscriptions

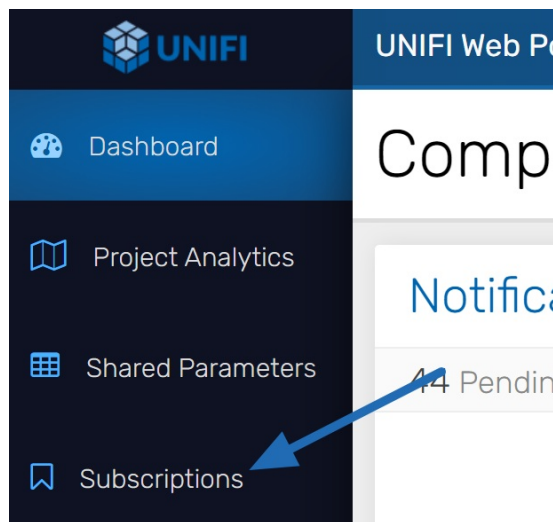

Last Modified on 05/24/2022 7:03 pm EDT

Channels are ways for other content providers to share their libraries at no additional cost to you. UNIFI has partnered with BIMStore, along with numerous manufacturers, to provide additional value to your subscription. All Revit out-of-the-box families can be found here as well.

To subscribe to this content, a Company Admin must first go to the Web Portal by clicking on the globe icon in UNIFI.

Next, select **Subscriptions**.

To subscribe to a particular channel, select the **+ Subscribe** button.

From here, simply indicate which user groups to share this content with by flipping the switch next to the group name.

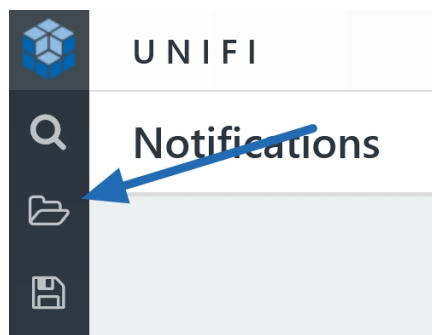

Subscribe

? Select which user groups you would like to have access to this content channel.

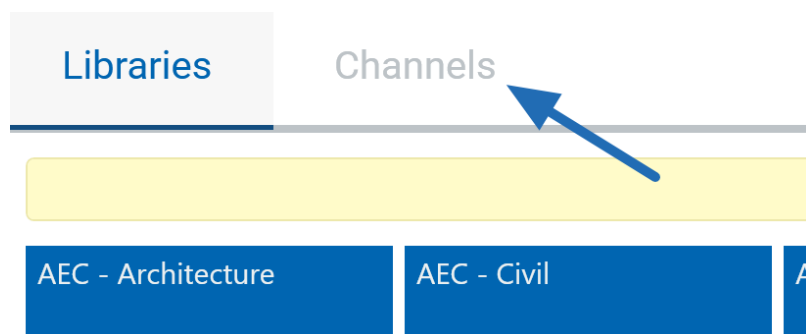

User Groups	Select All
Admins - Content Request Notifications users	<input type="checkbox"/>
Architecture - AU users	<input type="checkbox"/>
Architecture - UK users	<input type="checkbox"/>
Architecture - US users	<input type="checkbox"/>
AutoCAD Content Request users	<input type="checkbox"/>

In order to see what is in the channel, subscribe to that particular channel. What we recommend is to create a couple of groups. One could be an admin group to allow admins to see the content before deciding to release it to all users.

To view that content in UNIFI, close out the UNIFI platform and reopen it. Next, select the folder icon on the left side of the screen.

Then select **Channels**.

Next, find the folder for the channel that you just subscribed to and open it to view the content.
